

STOKED ADVENTURE OUTFITTERS

# NERF BARS 2.0

INSTALLATION INSTRUCTIONS

**Thank you** for supporting our small business! We look forward to your adventures ahead. In a way, you could say we do what we do because we love it! Stoked Adventure Outfitters Ltd. was founded in 2018 in beautiful Squamish, British Columbia, Canada. We are passionate adventure hounds who enjoy exploring the great outdoors around us. This gives us the opportunity to do tough testing on all of our products. Our team takes great pride in producing premium aluminum products for your adventure rig.

## **HARDWARE**

- 3 nerf bar hoops (passenger has a long step)

## **TOOLS REQUIRED**

- Impact driver (recommended).
- Drill.
- 9/16 and 7/16 wrenches.
- 3/16 Allen key bit with extension.
- 9/16 socket.
- ¼, 13/32 and 17/32 drill bits.
- Rivnut gun.

- 
1. Set the first bracket as far forward (still being flush) toward the front of the van.

2. Mark and drill both your ¼” hole (3rd set of holes from top).

---

3. Mount the first bracket using the provided ¼” bolts and nuts.

4. Mount the Nerf Bar hoop to both brackets to set the distance between bracket 1 and 2.

Mark and drill all  $\frac{1}{4}$ " and  $\frac{11}{32}$ " holes (you might need a second set of hands here).

- 
5. After drilling all  $\frac{11}{32}$ " holes take the brackets off and drill and set your  $\frac{3}{8}$ " Rivnuts in.

6. Mount brackets back on and attach your nerf bar hoops to the brackets.

---

7. Position the passenger bracket as far forward, like shown in the picture.

Once you've installed the first bracket mount your Nerf Bar hoop to both brackets to set the distance between both brackets.

**MAY YOUR ADVENTURES TAKE YOU TO COOL PLACES!**

**Any questions?** Don't hesitate to get in touch with us via email, phone call or a nice little visit at our location.

We love to see where your van takes you! **Share any photos** with us on social media or via email. Tag us [@stokedadventureoutfitters](#).
